

To Whom It May Concern:

I am writing this letter of recommendation on behalf of Quinn Carrier. My name is Dominic Robinson, I run 3D Sports Performance and 3D Baseball in Phoenix, Arizona. In 2015 I moved to Phoenix and a year later became the director of USA Baseball for the Southwest region. Very quickly I was made aware of an infielder from Arcadia that was one of the best players in the state in his class. It didn't take long for Quinn and his family to become an integral part of our program and our family ever since. I have an extremely high expectation for our players in terms of performance, leadership and mentality. In everything we do they are expected to lead, we have been very fortunate to have many Division 1 players play our program and physically Quinn fits the mold right there with all of them.

In terms of Quinn's physical ability, his greatest asset is his versatility. Although he is a plus middle infielder with a strong arm, he also has the athleticism to play both corner infield and outfield spots. We only play the highest level of tournament competition nationally as well as having an incredibly competitive environment within our own program and Quinn has handled every challenge. In our high school prep training program during his 8th grade year, he absolutely elevated his game, increasing his strength, speed and explosiveness greater than anyone else in the program but more than anything establishing himself as a leader amongst many of the Arizona's alpha dogs.

My personal favorite attribute the Quinn possesses is his tremendous sense of humor, light heartedness and ability to process both failures and successes. Every team, every training group, every teammate that Quinn has had is better because of his presence. I've seen him smile through his struggles and i've seen him make others smile through struggles of their own. Through his relationships in the dugout and the athletic ability he brings, it has been an absolute joy to Coach Quinn as he makes every team he is on better. A huge burden is lifted off of my shoulders once he is on a roster because I know he is going to bring intangibles that we need in order to be the best version of ourselves. Whatever college he chooses to go to is going to get more than you can ask for from a student-athlete because they will be getting an extraordinary human being.

Sincerely,

Dominic Robinson
Director of 3D Sports Performance
